

**Reliable Connections™**

**H-17191  
Mechanical  
Joint Fittings**

### **Installation Instructions**

- Step 1** - Thoroughly clean the pipe on which the fitting is to be attached.
- Step 2** - Remove straps and attach fitting to top of pipe.
- Step 3** - Attach straps and tighten nuts evenly by pulling up each one a small amount at a time to the recommended torque.

2" & 3"	60 ft. lbs (720 in-lbs)
4"	140ft. lbs. (1680 in-lbs.)

- Step 4** - Remove the completion cap and completion plug from the fitting and attach the test cap tightly to the fitting.
- Step 5** - Apply air pressure and test for leaks with soap suds (add glycerin in freezing weather) or bubble type leak detecting fluid.
- Step 6** - Remove Test Cap.
