

MUELLER

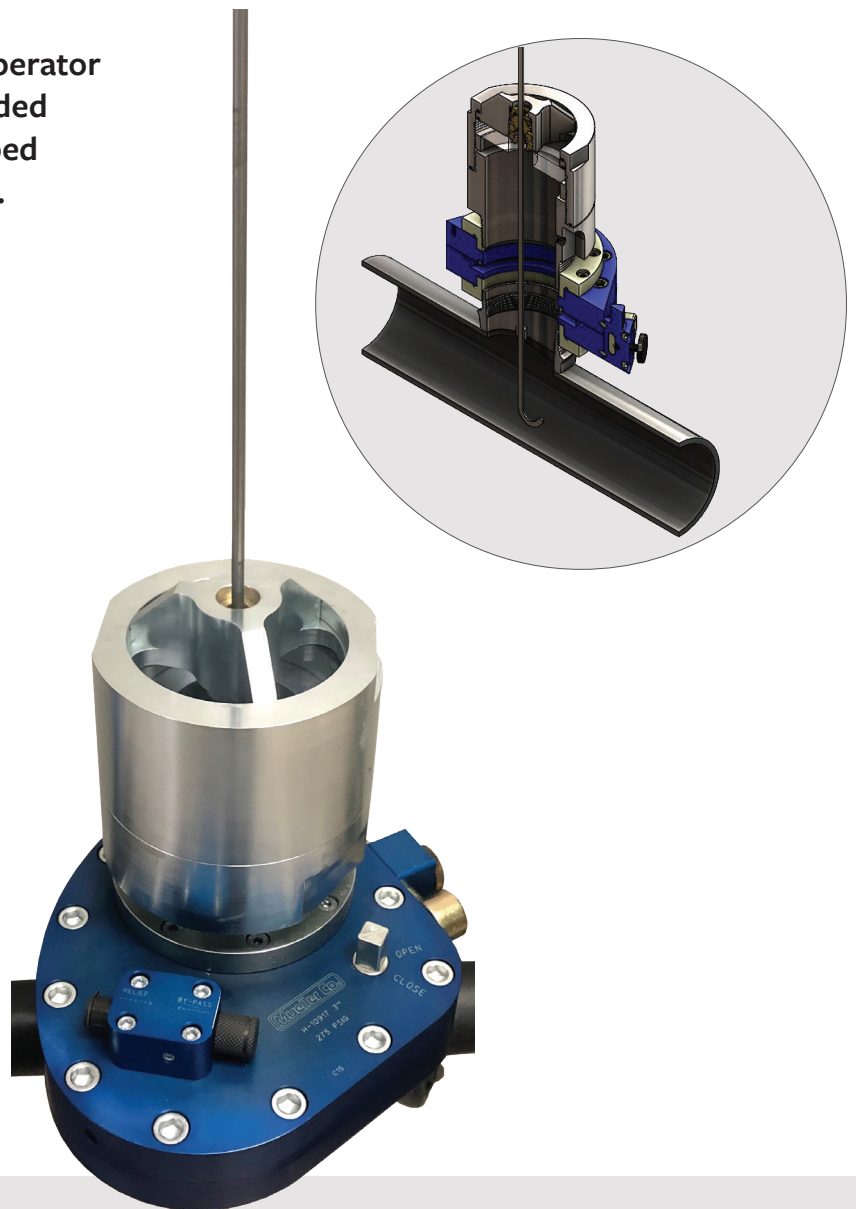

H-17621 INSPECTION PORT FOR SMALL THREADED LINE STOPPER FITTINGS

Product Advisory

An inspection port that will allow an operator the ability to look inside Mueller threaded fittings to see the cut, retrieve a dropped coupon or inspect for any other needs.

FEATURES AND BENEFITS

- For use on all 2"-4" line stopper fittings
- Includes adapters for 2", 2½", 3" and 4" threaded Mueller gate valves
- MAOP of 500 PSI
- Large viewing port is produced out of a ballistic grade, 3-ply polycarbonate and acrylic laminate.
- All parts are easily field replaceable.
- Can be used only as a viewing port or with retrieval rod.
