New Model H-10917 Slide Gate Valve

Light Weight, Easy To Repair, No Bottom Bushing Required

Mueller Company is introducing a new model H-10917 Slide Gate Valve. Commonly used in many small diameter line stopping applications, the 2015 model incorporates many new upgrades providing ease of use and field maintenance.

- High strength aluminum body reduces weight by up to 40% depending on size.
- Steel replaceable threads provide easy field replacement if damaged.
- O-ring seals deliver leak-free operation and simple maintenance.
- Low Profile
- 275 psig

Part Numbers

2"	01091700 550
2-1/2"	01091700 600
3"	01091700 650
4"	01091700 740

Construction Materials:

- Body: Anodized Aluminum Alloy
- Threaded Ends: Galvanized Steel
- Gate: Galvanized Steel
- Equalizing / Bleed valve: Aluminum Alloy
- Bolts: Galvanized Steel

Effective (9/8/2015) the "Yellow" Pre-2015 style Slide Gate Valve will no longer be available for purchase as a complete unit. Orders for H-10917 Slide Gate Valves will be filled with the new improved "Blue" model after this date. When submitting purchase orders, please use part numbers included in this advisory. Mueller will continue to supply replacement gaskets, slide gates, and hardware for old style valves. Top and bottom ductile bodies will no longer be available for purchase after 9/8/2015. Please contact local Mueller Regional Account Manager with any questions.
