New Option for 4-1/4" - 8-1/2" Shell Cutters for Improved Performance and Durability

Mueller® Shell Cutters 4-1/4" thru 8-1/2" can be ordered tipped with a special alloy steel that holds a keener edge for smoother cuts, less heat generation, and less stress on the drilling machine and power operator. It's the same material as we've used for our tips of our 10" and larger shell cutters for some time. The tips are braised securely in place, and resist chipping and breaking better than carbide. With these new cutters, you get improved performance from your equipment and more usage between sharpenings.

For those who prefer to continue to use the original plain tooth cutters, they will continue to be available.

Shell Cutter Size	New Tipped Part Number	Current Non-Tipped Cutter
4-1/4"	682879	036472
6-1/4" (standard length) / Standard Wall	682885	036548
6-1/4" (extended length) / Standard Wall	682880	046734
6-1/2" (standard length) / Thin Wall	682876	063146
6-1/2" (extended length) / Thin Wall	682882	502775
8-1/4" (standard length) / Standard Wall	682877	036521
8-1/4" (extended length) / Standard Wall	682881	052217
8-1/2" (standard length) / Thin Wall	682878	063115
8-1/2" (extended length) / Thin Wall	682883	502776
