

Shur Stop™ PE Line Stopping System

NO-BLO™

Shur Stop™ PE Line Stopping System

The Mueller® Shur Stop™ Polyethylene (PE) Line Stopping System is a revolutionary lightweight solution providing 100% leak free performance.

- 125 PSI maximum working pressure to meet demands of modern PE systems
- Large machine-to-machine by-pass connections
- Electrofusion Fittings compatible with industry standard universal processors
- Unique mechanical stopper provides NO-BLO performance.
- Lightweight construction

Whatever your PE Stopping application, Mueller Co. has the tools and parts to get the job done efficiently and safely.

01

- 01 Fittings provide secure reliable electrofusion connection. Installed using proven industry standard processors and procedures.

02

- 02 Lightweight aluminum alloy valve delivers strength and maneuverability in a low profile design.

03

- 03 Drilling Machine contains built-in travel indicator eliminating guesswork from the drilling procedure. Virtually all PE shavings are collected inside specially designed shell cutters.

Inspection & Cleaning Viewer

Shur Stop™ Stopping Machine

04 Inspection and Cleaning Viewer allows operator to fully inspect the pipe after cutting operation.

05 Revolutionary stopper design is mechanically expanded into the pipe wall, ensuring a complete NO-BLO stop-off every time. One stopper diameter covers a wide range of SDR's, eliminating the need for multiple stopper rings.

Delivery and Service

The capacity to deliver the widest array of products and stand behind those products to ensure your satisfaction is our strength. The success of Mueller Co. is dependent upon the success of those who are involved, both inside and outside our company. Therefore, we feel our future is wholly-dependent on long-term relationships with our employees, customers and suppliers. This is why we strive to be proactive and responsive to your needs, always looking for a “better way”. It’s an approach that has set us apart since 1857 and will assure our mutual achievement and prosperity in the future.

Mueller Co. sales representatives, strategically located around the world, are always ready to provide application and installation assistance and help with any special requirements.

Foster a Safe and Environmentally Responsible Culture

Protecting the health and safety of our employees is essential. We implement effective and responsible work processes and procedures based on industry best practices. We strive to be good stewards of the environment in the way we conduct our business.

Fostering a Safe and Environmentally Responsible Culture means:

- Think of safety, quality and environmental stewardship as a way of life
- Achieve higher safety goals and provide ongoing safety education and training
- Be aware of safety hazards, implement incident prevention strategies to resolve them and regularly evaluate safety and environmental activities
- Adhere to a workplace free from violence, illegal drugs and the inappropriate use of alcohol
- Improve our environmental performance and the communities we serve as environmental stewards, working to conserve valuable natural resources
